Jurabek Mukhammadov | Frontend Developer

111201 Kibray, Tashkent, Uzbekistan | +998 (99) 099-07-54 | Email | LinkedIn | GitHub | Telegram

Objective

I am highly motivated to join a dynamic and forward-thinking team where I can contribute to creating exceptional web solutions. I am passionate about collaborating with talented professionals, continuously learning, and applying my skills to deliver high-quality results. With a strong drive to embrace new challenges, I am eager to push boundaries in web development, adapt to the latest technologies, and make a meaningful impact on every project I take part in.

Work Experience

PRICE MONITORING SPECIALIST | FEB 2025 – SEP 2025

Cheese Day LLC — Tashkent, Uzbekistan

I worked for this company for 7 months as a price monitoring specialist. Here, I improved my sales knowledge through extensive research and international meetings.

- ✓ Contributed to the development of automated systems that streamlined workflow processes and enhanced productivity levels in the department.
- ✓ Trained new hires on monitoring procedures, contributing to an increase in overall team performance.
- ✓ Collaborated with cross-functional teams to address monitoring gaps and implement corrective actions.
- ✓ Proactively identified potential issues through regular analysis of monitoring data, facilitating timely resolution efforts.
- ✓ Developed customized monitoring strategies for clients, ensuring tailored solutions to meet specific needs.
- ✓ Conducted comprehensive audits to ensure regulatory compliance and mitigate potential risks.

- ★ Teamwork and collaboration
- ★ Network support
- ★ Problem-solving
- ★ Time management
- ★ Problem-solving abilities
- ★ Self-motivation
- ★ Software deployment
- ★ IT best practice framework expertise
- ★ Active listening

Activities & Interests

- ♦ **Reading Historical Books**

I enjoy reading historical books, as they help me develop critical thinking and broaden my perspective by learning from past events, decisions, and leadership styles. This hobby strengthens my analytical skills, improves my attention to detail, and enhances my ability to understand complex contexts—qualities that I can apply to problem-solving and decision-making in the workplace.

- ♦ **Watching Formula 1 Races**

I am also passionate about Formula 1, which inspires me with its blend of teamwork, strategy, and precision under pressure. Following the sport has taught me the importance of continuous improvement, adaptability, and staying focused in competitive environments. It also reflects my appreciation for innovation and performance optimization—values I bring into my professional work.
